Job: GRA

Start Date: January 2, 2018

End Date: April 30, 2018

Hours: 5 hours per week,

Salary: Minimum starting salary: $ 836.42 per month (2017-2018 rates)

Research Supervisors: Dr. Heather Kanuka

Application Deadline Date: January 8th, 2018

Specific duties

The graduate research assistant duties will involve assistance with:
- A critical review of the literature
- Qualitative and quantitative (survey) data collection and analysis

Minimum Skills

The GRA must have a successfully completed a research methods course on data collection and analysis. Preference will be given to applicants with knowledge in quant and qual (mixed methods) data collection and analysis.

Potential Learning Opportunities

This experience will provide the GRA with an opportunity to (a) be exposed to hands on experience in doing quantitative data collection and analysis (survey construction, reliability, validity, SPSS software) and (b) provide experience in doing mixed method data collection and analysis. Very few opportunities are available in our department for our graduate students to be exposed to mixed method research methodologies.

Please include in your application a letter of interest specifying relevant experience and fit for the position, a copy of your updated CV, and a list of 2-3 references that we may contact. Send all materials and any inquiries to: Izabela Martyniak, martyna@ualberta.ca
